

RECA

RECA | CONNECTS. PERFORMS. INSPIRES.

RECA - Your specialist in C-parts management

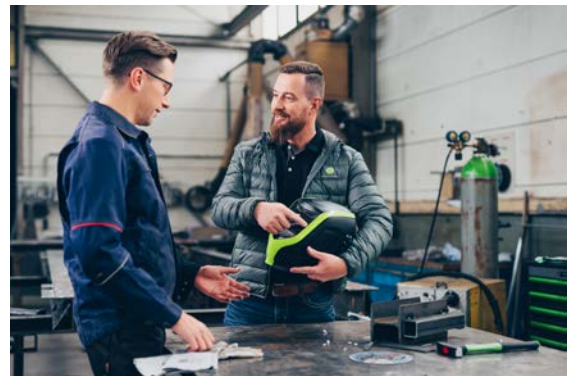

Reca Ltd. – a proud member of the RECA Group, an international network comprising 27 companies across 19 European countries – has been a trusted partner in Hungary since 1994, delivering premium-quality tools and professional services.

With a comprehensive portfolio of over 120,000 products – including tools, chemical solutions, as well as advanced assembly and fastening technologies – streamline your operations to quickly achieve your business objectives.

Our philosophy is rooted in excellence: the use of superior raw materials, unwavering commitment to stringent occupational safety standards, and consistently outstanding product quality. These core values shape our everyday work and reflect our dedication to long-term partnerships built on reliability and performance.

Tailored Expertise. Nationwide Support.

Our experienced consultants offer personalized, advisory services across the entire country. Reach out to our team by phone or email for technical guidance, specific product recommendations, or an on-site visit to review your needs.

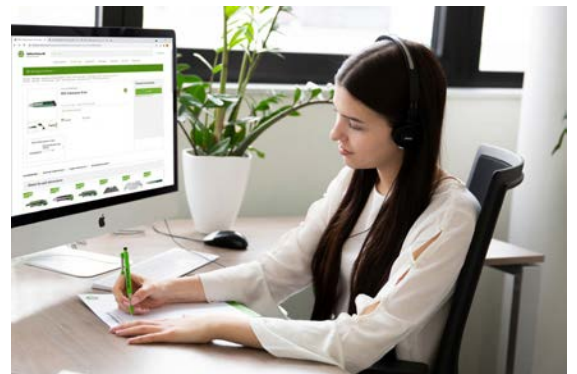

Experience Our Solutions Firsthand

Take advantage of our complimentary product demonstrations, designed to let you test our tools and solutions in real working conditions.

We are committed to helping you find the most effective, value-driven tools tailored to your unique needs and processes.

RECA eShop – Always Open, Always Accessible

Keep your operations running smoothly with our extensive selection of over 120,000 products at www.shop.reca.co.hu. The online shop is a seamless, user-friendly platform to access everything you need.

Innovative Logistics, Seamless Supply

Our cutting-edge, automated logistics center in Wels, Austria, ensures fast and reliable delivery throughout Hungary. From order to fulfillment, we prioritize precision and speed—so you can focus on what matters most.

Premium Product Portfolio

Our carefully curated range features RECA-branded products alongside leading manufacturers' tools and fasteners. We offer ready-to-use assortments or fully customized kits, tailored to your specific workflow requirements.
